

30 years

La Sommelière

YOUR WINES FEEL GOOD AT HOME

*Product Guide*

VERSION 2023/10

# La Sommelière

A French company founded in 1993, La Sommelière is a major player in the European wine cellar market. Constantly growing for more than 30 years, our know-how is daily put at the service of high-performance wine cellars, with innovative solutions for the conservation and aging of wine.

Buying bottles of wine can soon add up. It's an investment. Our cellars have been specially designed to guarantee optimal storage conditions for your bottles with features such as humidity control, temperature stability, anti-vibration system, air filtration and UV protection.

To choose the right wine cellar for you, here are a few questions to ask beforehand:

Why am I buying a wine cellar? Is it simply to have a few bottles to hand—at the ideal serving temperature—or to store a number of bottles of red, white or rosé wine for several months? Or is it for keeping fine wines in a place where they can be laid down for a number of years?

How many bottles do I need to store?

In which room of the house will the wine cellar be installed? In a reception room or in an unheated room such as a garage or storeroom?

If you bear all these selection criteria in mind, it will be much easier to choose the perfect wine cellar for you.

Imported by HILKNIGHTLY INDIA PVT LTD, and sold via our exclusive store

This makes La Sommeliere a bestseller

*We partnered La Sommeliere in early 2000 for India. Over time La Sommeliere range has become better every year by beautiful product line at a price that is within the spend of most people in upper middle and affluent. With La Sommeliere you have access to the best wine cabinet range that suits your taste, instead of relying on limited generic options. No one wants a cheap wine cooler and La Sommeliere avoids the pain of high costs associated with premium wine cellars, yet offering top of line features and brand.*
