

Let ITV Ice Maker – Make Your Ice Nice

ITV Ice Machines, made to order in Spain, carry a winning design line to improve the beverages product, service with a superior installation.

Explore on.

ITV is a family owned company, that has been manufacturing ice machines for 40 years. The company was founded by Octavio Cordon, a refrigeration engineer that worked for the biggest refrigeration company in Spain at the time.

Octavio decided to sell his shares in the company, and start his own, which he named Industria Técnica Valenciana, meaning Technical Industry of Valencia. He wasn't sure whether he would end up manufacturing other equipment apart from the ice machines, so he didn't want to compromise with a name. In the end, after forty years, ITV has only manufactured ice machines, but quite successful.

1. 20,000 Ice machines annual production.
2. 275 billion ice cubes, and 100,000 tons of granular ice globally.
3. Residential, Healthcare, Hospitality, Supermart, Sports & Fitness, Fisheries.
4. 35000 sq meters advanced manufacturing facilities.

2Cube Ice Machine

An all new, large square ice maker removes the need to manually freeze, cut and craft ice that is time consuming.

Now serve speciality ice cocktails time and again on cleaner, faster and superior ice.

Petite Stella - 17"W x 27"H Big Ice

How to produce 45 kg ice of 22 gr size out of the most petite ice maker in the market.

The 27" Ice maker fits under the front counter of 30 inches height. Similar production machines take a space of almost 24" x 24" width and 32" high.

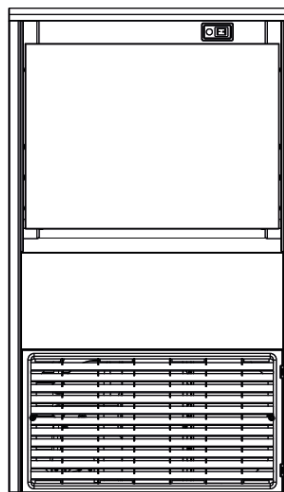

Think of Stella when you think Super Petite and real compact with capacity of 30 and 45 kg / 24 hr.

About ITV Ice Makers

1st True Built-in

While most ice makers need air gap on back and sides increasing space with reduced production capacity by almost 40%, ITV Built in Ice Machine can snug fit to back and sides with airflow in front.

Resultant is efficient cooling, superior installation in smaller spaces and the highest production capacity in the market.

DELTA MAX

Delta Max as the best seller with square cube ice of 40 gr, a perfect design for maximum ice surface and minimal dilution.
